### General Disclaimer:

The Wood Shop Millwork & Joinery assumes no responsibility for site changes that affect the millwork fitment specified in this set of drawings. It is the Sole Responsibility of the contractor or property owner to provide The Wood Shop Millwork & Joinery with information pertaining to any and all changes or revisions necessary to the millwork design illustrated in this set of drawings. Additional Charges may apply to design revisions or project delays.

### Colour Match Expectations:

The Woodshop Millwork & Joinery's paint & stain suppliers use modern Colour Eye™ Technology to achieve excellent results.

The actual finished colour will vary due to species, wood color, grain pattern, equipment used, age of swatches, & metamerism (a phenomenon that occurs when two colours appear to match under one lighting condition, but not when the light changes.)

These are all qualities of a hand made custom product, that gives your job it's uniqueness.

### Timeline Disclaimer:

Once we have received signed off copies of the plans these plans supersede all other verbal and written communications and are used for construction of your project.

Only after sign-off can we begin ordering materials & provide an installation date, typically 6 – 8 weeks after sign-off.

Any changes after this sign off may cause a job delay, plan revisions, material order revisions and extra charges.
